

Case Study

Issue:	Lack of standardised management reporting
Industry:	Complex services organisation
Challenge:	The Chief Executive Officer was having difficulty assessing and benchmarking the operational performance of the various divisions, as the reporting process to H.O was primarily driven by compliance and regulatory needs
Approach:	Developed a standard management reporting framework and format that all divisions were required to comply with Realigned the budget process that enhanced financial reporting and control
Outcomes:	<ul style="list-style-type: none">✓ Improved analysis on business performance✓ Reduction in reporting timelines✓ Benchmarking of divisional performance
